

**IN THE CLAIMS:**

Claims 33-40 and 43-46 have been amended herein. Claims 23, 26, 27, and 30 have been canceled. Please note that all claims currently pending and under consideration in the referenced application are shown below. Please enter these claims as amended. This listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

1-32. (Canceled)

33. (Currently Amended) A combustible fuel comprising:

- (a) an alcohol component in the range of 60% to 65% by weight;
- (b) a naphtha component in the range of greater than about 30% and less than or equal to about 40% by weight.

34. (Currently Amended) The combustible fuel of claim ~~33~~33, wherein ~~said the~~ alcohol component is one or more alcohols of the formula ~~ROH~~ROH, and ~~where~~wherein R is selected from the group consisting of straight-chained alkyl of from 1 to 10 carbons, branched-alkyl of from 1 to 10 carbons, and cyclic alkyl of from 1 to 10 carbons.

35. (Currently Amended) The combustible fuel of claim ~~33~~33, wherein ~~said the~~ alcohol component is selected from the group consisting of methanol, ethanol, 1-propanol, 2-propanol, butyl alcohol, isobutyl alcohol, tertiary-butyl alcohol, glycerol, and mixtures thereof.

36. (Currently Amended) The combustible fuel of claim ~~34~~34, wherein R of ~~said the~~ alcohol formula is alkyl of six or fewer carbons.

37. (Currently Amended) The combustible fuel of claim ~~33~~33, wherein ~~said the~~ alcohol component comprises a mixture of ethanol and isobutanol.

38. (Currently Amended) The combustible fuel of claim ~~33-33~~, wherein ~~said the~~ alcohol component is ethanol.

39. (Currently Amended) The combustible fuel of claim ~~33-33~~, wherein ~~said the~~ naphtha component is a mixture of hydrocarbons distilled from petroleum.

40. (Currently Amended) The combustible fuel of claim ~~33-33~~, wherein ~~said the~~ naphtha component is in the range of 35% to 40% by weight.

41-42. (Canceled)

43. (Currently Amended) The combustible fuel of claim ~~33-with-33~~, wherein the fuel has a Reid Vapor Pressure less than or equal to about 15 psi.

44. (Currently Amended) The combustible fuel of claim ~~33-33~~, further comprising additives selected from the group consisting of corrosion inhibitors, surfactants, detergents, metal deactivators, antioxidants, fuel stabilizers, and anti-freeze components.

45. (Currently Amended) The combustible fuel of claim ~~33-33~~, wherein ~~said the~~ alcohol component is 60% ethanol, and the ~~said~~-naphtha component is 40%.

46. (Currently Amended) The combustible fuel of claim ~~33-33~~, wherein said alcohol component is 45% ethanol and 20% isobutanol, and the ~~said~~-naphtha component is 35%.

47-74. (Canceled)

75. (Previously Presented) A method of manufacturing a combustible fuel comprising the steps of:

obtaining an alcohol feed;

obtaining a naphtha feed;

blending said alcohol feed with said naphtha feed to obtain the combustible fuel comprising from about 60% to about 65% by weight alcohol feed and about 30% to about 45% by weight naphtha feed.

76. (Canceled)
